HISTORIC AMERICAN ENGINEERING RECORD

SUBLET MINE NO. 6, HOIST HOUSE

HAER  
WYO  
12-KEMMV,  
ID -

HAER No. WY-54-D

**Location:** Northern-most structure, east side of valley  
Willow Creek Valley  
3 Miles North of U.S. Highway 189  
intersection with County Road 306  
1/4 Mile East of County Road 306  
Lincoln County  
Wyoming

**Significance:** The hoist house performed a critical function within the complex by pulling the coal cars from the mine to the tipple.

**Description:** Constructed of cut stone and concrete, three walls remain, as does the spindle that held the cable.

**History:** Constructed in 1913 as an integral part of the Sublet Mine No. 6, built, operated and owned by Kemmerer Coal Company; ceased production 1927.

**Sources:** State Mine Inspector Reports, 1913-1927;  
Kemmerer Coal Company Collections in Fossil Country Futures Museum (Kemmerer), American Heritage Center (University of Wyoming), Wyoming Historical Research Division (Cheyenne)

**Historian:** Michael Cassity, High Country Historians, July 1993
